WHEN TO USE PROTEIN XTR®

Warnings: food supplements are not intended as substitutes of a varied, balanced diet and a healthy lifestyle. Do not exceed the recommended daily dosage. Do not use in pregnancy, in children or for long periods without your doctor's advice. Keep out of reach of children under the age of 3. Store in a cool, dry place. The best before end date applies to the product in its intact container when stored as directed. This product is tested free from nandrolone and testosterone, with their precursors, free from Beta2-zagonists, amphetamines and ephedrines.

FEATURES

Protein XTR® is a high protein food supplement made exclusively from whey proteins. It is useful for the diet of athletes who train daily and it is suitable in case of increased protein requirements. This product is highly digestible with a natural, pleasant taste. Technology used (cross flow ultra filtration and micro filtration) concentrates polypeptides, lactoglobulins, lactoferrin and a high BCAA concentration and guarantees a high solubility, which facilitates daily use of the product. Vitamin B6, which is contained in this product, contributes to normal protein and glycogen metabolism, normal energy-yielding metabolism and to the reduction of tiredness and fatigue. Proteins contribute to the growth and maintenance of muscle mass and to the maintenance of normal bones. This product is Gluten-free and Lactose-free, therefore is suitable for the diet of people with celiac disease and/or lactose sensitivity.

INDICATIONS

Protein XTR® is suitable for sports activities requiring intense muscular exertion. It can be useful also in low-calorie diets, to contribute to the maintenance of muscle mass.
