FEATURES

Energia Rapida[®]+ is a nutrition supplement useful to supply the body with additional nutrients to support the energy intake derived from food, especially in crucial moments during sports performance. It contains balanced sequential carbohydrates that provide a rapid glucose availability; it also contains taurine, alanine and electrolytes, useful nutrients for metabolic processes which create and transport energy in the body. It provides caffeine and ginseng which may have a positive influence in adapting to stressful situations and in case of physical and mental fatigue, as during intense and prolonged exercise. This product is recommended to rapidly supply the body with energy in order to contrast temporary energy dips; it creates an immediate and effective energy response also during critical situations. This product does not contain gluten (Gluten Free), therefore is suitable also for people suffering from celiac disease or gluten intolerance.
