

RESTORE POST WORKOUT

ANTI-FATIGUE, RELAXING AND REFRESHING GEL CREAM

RECOMMENDED FOR

ALL KINDS OF SPORT

- Athletes who train hard
- Athletes with difficulties in the recovery phase.

- Useful to regenerate, soothe and refresh muscles

INFORMATION

An anti-fatigue and refreshing massage to relax contracted muscle after work-outs can ease muscle recovery and promote athletic condition. Lowering muscles' temperature in the post exercise phase can help speed up muscle recovery.

FEATURES

Restore is an anti-fatigue and refreshing gel cream, useful to ease muscle recovery after intense physical exercise. It is easily absorbed and it gives an intense and prolonged wellness sensation, preparing muscles for the following training session.

The DFC (Defense Factor Complex) with its pool of antioxidant factors, fights the formation of free radicals in muscle, the onset of cramps and muscle aches, and combats exercise induced oxidative stress. Restore is quickly absorbed, it does not leave any stains or oily residue and it is suitable for all seasons.

INDICATIONS

Restore is suggested to relieve muscles after intense work-out. The anti-fatigue and refreshing action is very useful after intense sport activities and eases the recovery phase.

HOW TO USE

Apply on the muscles and massage gently until fully absorbed.
